

Daniel D. Morley – Office of Policy & Management (OPM)

Dan serves as Policy Development Coordinator for the Office of Responsible Growth within OPM. He is responsible for the development and implementation of the Conservation and Development Policies Plan for Connecticut, and administers the CT Geospatial Information Systems (GIS) Council's efforts to improve the coordination of GIS data and technology across all levels of government. He previously managed the State's successful efforts to form the Atlantic Interstate Low-Level Radioactive Waste Management Compact that provides Connecticut businesses and institutions with an affordable, long-term, out-of-state disposal option. Dan previously worked for the General Electric Co. as a Financial Management Program Recruit out of the University of Connecticut where he graduated with a B.S. in Environmental and Resource Economics.
